TK1 SERIES

The top-class goalkeeper line
for maximum protection and performance

When you know something works you stick with it.

The classic TK shape hasn't changed much over the years because we've always understood that you need the maximum save area as a keeper. No goalkeeper wants to be weighed down by their kit either, that's why we design our gear to be lightweight to give you excellent mobility and make those all-important match-winning saves.

Our kickers are designed to work perfectly with our legguards to give you the best possible saving combo.

A special treatment during production gives the three-layer foam a very unique, slightly softer consistency that guarantees ultimate rebound performance - the ball is blocked and quickly leaves the danger area thanks to the high rebound

- Wide profile offers the maximum save area
- Square flat front for a consistent and predictable rebound
- Soft, pre-moulded inner area ensures a comfortable fit
- Extra reinforcement in the core provides excellent protection
- Three straps with quick-release buckles for easy adjustment
